

## Energetic Boundary

Does your child soak up all the emotions, feelings, burdening energies, and external energies, of its social environment, like a dry sponge? Maybe it even suffers from it? Your child might also show odd behaviour such as aggression, withdrawn, tiredness, or feeling unwell, without any obvious reason. The reason could be that the child cannot cope with the energetic burdens of its social environment, and therefore reacts accordingly. It would be appropriate to spray the child regularly with the **Angel Aura Essence "Energetic Boundary"**. In persistent cases you could alternately use **"Energetic Cleansing"** and **"Energetic Boundary"** (use **"Energetic Boundary"** in the morning, and in the evening or in situations where the child displays behavioural problems, **"Energetic Cleansing"**).

### A PRACTICAL EXAMPLE

***Situation:** Anne (aged 5) is visiting her grandmother. Although the girl is looking forward to it, because she has not seen her grandmother for some time, she starts to get restless and wants to go home after fifteen minutes.*

***Explanation:** Grandmother has been in hospital and taken on burdening energies and emotions from other patients into her subtle body (aura). Children can feel and sometimes even see these burdens. Repeated spraying of all the persons affected with the Angel Aura Essence **"Energetic Cleansing"** can help.*
